Ideas to Make Your One-Pager Stand Out!

- Use borders that contain images related to the text.
- Use different fonts and colors to draw attention to various areas of your one-pager.
- Fill the entire page – no white space!
- Write neatly and make sure the writing is easy to read ... pencil may not always be the best choice!
- Recommendation: Before you begin your final draft of your one-pager, you may wish to map out a sketch of where each requirement will go and what you will include in each section. This will help you produce a much more organized and ultimately more creative one-pager!
